PRESS RELEASE FOR IMMEDIATE RELEASE

HEADLINE: Great Lakes Contractor Services Expands Territory

Ernest Swierk, president and founder of Great Lakes Contractor Services, announced that beginning September 1, 2014, GLCS would expand its territory to include Indiana and Michigan to its home based state of Illinois.

Great Lakes Contractor Services is a five year company originating from the Rainbow Cleaning Specialists, Inc. "We recognized the increased need for quality construction and restoration services in the region, and after research decided to increase our list of services" Swierk commented.

Keith Henry, Service manager for Great Lakes Contractor Services explained, "We received a number of requests not only in the residential sector but also from insurance adjustors, so we felt that we needed to do our research as to the viability for expansion. We are pleased to be able to confidently add these services to our current line."

Great Lakes Contractor Services provides professional contracting, property damage cleanup, and professional cleaning services in a three state area, Illinois, Indiana, and Michigan. GLCS is based in Portage, Indiana and Lisle, Illinois and provides services to residential, commercial and institutions. Our philosophy is based on customer service and the GLCS reputation for quality performance. One call restores it all! For more information 855-403-6900 or www.glcsmidwest.com.
